At Lakeview, individuals don't live in our facility..... We work in their home

Lakeview Health Center takes pride in its tradition of providing care for people based on their individual needs.

There are private residential rooms. Common areas include large living rooms, a spacious community center, dining room, aviary, a chapel, dens, and family rooms. Designed in the person centered care model these areas are available for all individuals to enjoy in the company of friends and family or in the peace and silence found by oneself. You can relax outdoors in the warm sun while enjoying the beauty of one of our courtyards.

Our staff have training and expertise in assisting individuals with managing challenging behaviors.

Lakeview's specialty is providing care based on our core principles:

- **Knowing the person**
- **Family involvement**
- **Resident dignity**
- **Privacy and choice**
- **Resident choice dining**
- **Staff empowerment**
- **Personal enrichment and enhancement**

Family and community involvement is an integral component of our program. Individuals are encouraged to remain active participants in programs within and outside the building, pursuing individual interest and needs.

Meadowview, Garden Terrace, Northwood and Cedar Lane provide a home-like environment to adults and encourage participation in daily living activities. Staff is dedicated to developing personal connections between residents, family members and staff.

Dining Services offer flexible dining times within in each household based on resident preference. Professional staff prepares tasty and appealing meals specifically tailored for individual likes and dietary needs.

Staff are dedicated and specially trained for working with people who have challenging behaviors. The staff and environment allows for residents to enjoy their home and feel welcome.

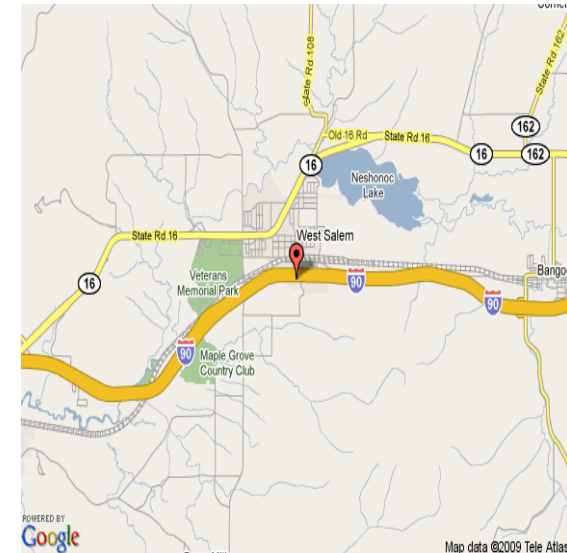

The Lounge and Gathering Room allow for social gatherings with food, drink and entertainment which provide opportunities for fun. Emphasis is placed on the individual and small group participation in community events.

“All persons accessing Lakeview services will be treated with the same dignity and respect and be able to utilize Lakeview services regardless of race, ethnicity, color, sex, disability, or other protected classes.”

Campus at Lakeview Health Center participates with Western Technical College, UW-La Crosse, Viterbo University and other area colleges and universities in providing on-site internships and clinical training programs. This affiliation has resulted in attracting and retaining professional staff.

Admissions Our admissions staff can assist you in exploring your admission options on the Lakeview campus. Please call 608-612-0637 for more information or to schedule a tour.
